CRAFT

Craft is a Swedish brand of functional sportswear that has supported endurance athletes worldwide since 1977. Every garment is created with passion, innovation, and years of experience with top athletes to keep them dry, comfortable, and performing at their best in any weather. From research and development to testing within its own team, Craft combines maximum functionality, flexibility, and durability.

PROJOB
PROFESSIONAL WORKWEAR

ProJob is a Swedish workwear brand, founded in 1998, specializing in clothing with high functionality, ergonomics, and quality. Its products are designed for professional environments such as craft, industry, construction, logistics, and workshops – anywhere durability, freedom of movement, and comfort are essential in everyday work. ProJob combines robust materials and well-thought-out cuts with timeless, practical design, making the clothing equally functional, unobtrusive, and long-lasting.

UM UNTAGGED MOVEMENT

The new brand Untagged Movement stands for sustainable, transparent, and comfortable fashion – completely without visible labels. It is aimed at everyone who wants to show that sustainability and identity go hand in hand. The gender-neutral collection is available in sizes XXS–5XL and up to 15 colors – perfect for merchandise, companies, clubs, or events. Every garment is vegan, OEKO-TEX "Made in Green" certified, features a QR code with information on materials and origin, and is machine washable up to 60 °C.

9 new brands

Printer

Printer offers durable and versatile corporate, promotional, and workwear for a wide range of industries. The three collections – Printer Essentials, Printer Prime, and Printer Red – combine modern design, practical features, and coordinated colors for easy mixing and matching. With a wide size range, attractive prices, sustainable materials, and simple customization, Printer is ideal for teams and brands seeking functional, stylish, and eco-conscious clothing.

CLIQUE

Founded in 1990 in Sweden, Clique was created to help companies build a strong brand presence. The collection includes three lines: Basic (affordable and colorful), Classic (for higher demands), and Premium (highest quality) – each available for women, men, and children. The range is complemented by sustainable items made from 100% organic cotton for environmentally conscious audiences.

MR. SOCKS

Mr. Socks is based in the picturesque region of Vorarlberg and gives socks a modern, creative, and playful touch. The brand offers high-quality tennis, business, and athletic socks with style and personality. All production takes place in Europe under fair conditions. Mr. Socks stands for quality, comfort, and meticulous craftsmanship.

514 new styles

JAMES HARVEST

Founded in 1988, James Harvest combines American college-inspired style with quality and functionality for modern business apparel. The collection ranges from smart casual to technical outdoorwear and is made from high-quality, sustainable materials. James Harvest helps companies create a consistent and professional brand image.

J.HARVEST & FROST
CORPORATE SHIRTMAKER

J.Harvest & Frost designs high-quality shirts and tailored clothing that combine timeless elegance with modern functionality. Since 2014, the brand has merged the college tradition of James Harvest with Frost's tailoring expertise. Known for precise craftsmanship, premium materials, and details such as non-iron fabrics, sealed seams, and split back yokes, J.Harvest & Frost offers stylish, durable apparel for those who value sophistication and comfort in both work and evening settings.

CUTTER & BUCK

Cutter & Buck is a golf-inspired clothing line for men and women that combines classic aesthetics with modern functionality. Founded at the Seattle harbor, the brand embodies the harmony of sea and mountains. The collection offers high-quality, stylish apparel in a variety of colors – lightweight, breathable, quick-drying, and with stretch for optimal freedom of movement in any weather.

Textile Encyclopaedia – fabrics and materials from A-Z

3-in-1 jackets
jacket consisting of two components that can either be worn individually or together, e.g. removable fleece, jackets offers the opportunity to wear fleece and jacket individually or together (3 possibilities to wear).

acrylic
synthetic fibre similar to wool, characteristics: light-resistant, easy care, warming, high bulkiness, weather- and shape resistance, quick drying

antipilling
special treatment to reduce pilling and felting

antibacterial
special treatment to avoid the proliferation of bacteria and fungus, reduces odour

Bionic-Finish® Eco
water and dirt repellent impregnation, also known as DWR (durable water repellent) treatment, made from biodegradable ingredients, environmentally friendly and PFC-free, characteristics: washable, abrasion-resistant

brushed cotton
loose fibres are errected through a bruhsing process, enables a soft and velvet surface

brushed inside
sweaters are roughened inside after knitting to obtain the soft and warming fleece lining

button-down collar
collar points are fixed with buttons, sporty look, mostly used for leisure wear worn without a tie

cap closures
metal clip closure, hook and loop fastener (Velcro®, Rip-StripTM), buckle (tri-glide buckle), press stud (click&snap closure, snap back, pvc closure), Flexfit®

chino cotton (cotton-twill)
twill weave fabric, pattern of diagonal parallel ribs

collar bones
are added to the collar to prevent the collar points from rolling up, collar bones can be fixed or removable and can be made of different materials (plastic is the most commonly used material)

combed cotton
the cotton is parallelized before spinning and short fibres are removed, as a result, the spun yarn is finer, stronger and has a smoother surface, less pilling

Cordura®
trademark, fabric made from polyamide, characteristics: rougher, better tear-resistant and more textured than regular nylon, water repellent and fast drying

cotton
natural fibre, high moisture absorption, pleasant touch, good colourability

cutaway collar
also called Italian collar, widely-spaced collar points, depending on the distance between the collar wings it is suitable for smaller or larger tie knots

decorative seams
are often conspicuous and are intended to decorate the garment in a targeted manner, some examples are piping, lap, quilting or edge seams, certain areas are contoured or made more conspicuous through decorative stitching, decorative stitching can only decorate or have an additional function, decorative seams can be distinguished by stitch type, stitch length and thread color

down jackets
have to be filled with down from duck or goose, characteristics: light weight, breathable, high isolation, great elasticity (unfold quickly to their original size after unpacking), winter jackets consist often of a mixture of 90% down and 10% feathers, feathers are important for an optimal isolation and enable the right unfolding of the jackets that wouldn´t be possible with a filling made of 100% down

drill
fabric in body weave, often in combination with cotton (cotton drill) or linen, characteristics: tear-resistant, extremely dense, hard-wearing, long-lasting

DuPont™ Sorona®
Sorona® is a functional fiber made from renewable vegetable resources by the chemical company DuPontTM, greenhouse gas emissions and energy consumption are significantly lower in production than with conventional products, characteristics: soft, robust, breathable and quick-drying fabric with good thermal performance

elastane
synthetic fibre used in small quantities for a better elasticity and form stability, often used in cuffs (e.g. on the neckline and sleeves)

enzyme washed
fabrics are treated with enzymes for various reasons, often aiming for a soft feel and a smooth surface, sometimes small tears are deliberately created in the fabric to make clothing look worn (used look)

felt
non-woven fabric, fibres get connected through a chemical, thermic or mechanical process, originally made from wool, also produced in various natural and synthetic fibres, characteristics: high density, elastic with pressure, slightly stretchable, resistant, high isolation

fil-à-fil
fabric with a diamond-like appearance, colour change in warp or weft ensures a special two-tone look, which is referred to as the speckle effect, characteristics: hard-wearing and easy to iron

fleece
brushed velour fabric, usually made of polyester, the loops of this knitwear are cut open and roughened, soft and velvet touch, comfortable on the skin, high isolation at low weight, water repellent

fleece with smooth surface
perfect for decoration because of the smooth outside, brushed only inside

french terry
not brushed inside, sweater is less soft and warm, less pilling

heather/melange
using yarns with different colours and materials creates this effect

herringbone
twill fabric, distinctive V-shaped weaving pattern, reminding of a fish skeleton, easy to iron, tough and densely woven fabric, often used for casual business outfits

hybrid jackets
made of mixed material, that provide different characteristics, for example on body and arms, for example wind proof and breathable materials are combined

interlock
very compact surface, high quality, durable, elastic fabric with good washing results, inside and outside look the same

jute
bast fibre, made from the stems of jute plant, coarse fibre, characteristics: tear resistant, suitable for dying, high firmness at stretching, specific smell

kent collar
elegant, classical, pointed, short collar - suitable for almost all tie knots and -shapes, also suitable for bow ties

knitted fleece
knitted out- and brushed inside give the fleece an exceptional visual characteristic and a good isolation

Lycra®
registered trademark, elastane fibre

mercerized cotton
Mercerization is a refinement process to make fibers more tear-resistant and give them a shiny look, mercerized cotton can be colored more evenly, shrinks less, hardly creases and has a particularly soft touch

mesh
material with coarse structure for more breathability, often used for linings or insets

microfleece
short cut fleece material, lighter, finer and more compact than regular fleece

mottled yarn
using yarns with different thickness creates this effect

neck tape
fabric tape between body and collar for comfortable wearing, shoulder-to-shoulder necktape is a characteristic of quality and improves dimensional stability and stabilisation of the seams, often with herringbone pattern

new kent collar
an elegant mix of kent and cutaway collar, not as wide as the cutaway, not as pointed as the classical kent collar, suitable for all tie knots

organic cotton
has certifications such as GOTS and OCS, in-conversion cotton supports farmers in switching from conventional to organic cotton, during the conversion all ecological standards are already observed, it usually takes 3 years to receive an organic certification

oxford
plain-weave fabric, two-tone appearance because of the use of one white and one coloured yarn, durable and soft fabric that is warming on cool days, mostly used for leisure wear and often in combination with a button-down collar

padded jackets
quilted parts guarantee an even filling, filling can exist of various materials, padded jackets with down filling are called down jackets

panels
fabric elements of caps are called panels, most caps consist of 5 or 6 panels, 5 panel caps are better suitable for decoration on the front (no stitching at the front)

pima cotton
high quality due to long fibres, harvesting by hand and optimal growing conditions in Peru, characteristics: extra soft, light shine, extremely durable

piqué
granular surface, raised parallel cords or geometric designs in the fabric are characteristic

polyamide (nylon)
synthetic fibre with high durability, quick drying

polycotton
mix of cotton and polyester, to use benefits of both materials

polyester
most common synthetic fibre, characteristics: tensile strength, fineness, good dimensional stability, low moisture absorption, good wash behaviour, excellent light resistance

polyester pongee
fabric made from polyester filaments, thin, sleek fabric, formerly made from silk

poplin
plain-weave fabric, breathable, durable, smooth, lightweight and densely woven material, one of the most common fabrics for shirts and blouses

preshrunk
procedure to reduce shrinkage after washing (permitted tolerances)

raglan sleeves
diagonale seams course starting from the collar

recycled cotton
old textiles or textile remnants are shredded and spun into new fibres

recycled polyester (= rPET)
Plastic bottles and other plastic waste are shredded and melted down in order to produce new polyester fibers from them, recycling greatly reduces water consumption, CO2 emissions and waste, but the use of different plastic products leads to difficulties in the dyeing process and rPET often requires repeated dyeing processes, in addition the material is not biodegradable and releases microplastics into the environment, for these reasons experts disagree about the sustainability of the material, general characteristics like conventional polyester

rib knit
right/right product, equal in- and outside, often used for collar and cuffs, high elasticity, low material weight, difference between 1x1 rib (alternately knitted left and right) and 2x2 rib (alternately 2 left and 2 right stitches)

ring-spun cotton
softer, finer, smoother and more shiny than open end yarn, optimal printability

rip stop
typical chequered structure due to a special weaving technique, mostly made of nylon, characteristics: particular tear-resistant and strong

semi combed cotton
instead of 3 combing processings there is only one, result is a semi-finished product between carded (not combed) and combed cotton

set-in sleeves
straight set sleeves

single jersey
fine knitted, stretchy, breathable material, inside and outside different (left/right loops), material of most t-shirts

single ply terry
made of fine single yarns, fine loops get twisted and connected, softer and more absorbent fabric, more resistant against pulling out threads

softshell jackets
functional jackets, usually made of 2 or 3 layers (with membrane), inside material (e.g. microfleece) provides isolation and transports the moisture away from skin, if existing, the membrane has windproof and breathable function, outside is made of water repellent material, that transports moisture to the outside, softshell jackets without membrane are more breathable, jackets with membrane are more wind and rain proof

stretch
marks stretchable fabrics including a share of certain materials like for example elastane or Lycra®

Teflon®
used for coatings, water and dirt repellent, not printable

terry cloth
cotton fabric typically used for towels, small loops on one or both sides, very soft, bulky and absorbent material

(T)PU coating
through an inside coating the material gets breathable and water repellent or even waterproof

tubular construction
if not specified differently, all models have side seams to adapt the fit, items without side seams are declared as tubular construction

twill
twill weave fabric, pattern of diagonal parallel ribs, most common use in denim fabrics, durable fabric with a warm and soft touch

viscose (rayon)
chemical fibre made from a natural basic material (cellulose), often referred to as artifical silk, eudermic, not stretchable, strong wrinkling, flowing fabric, very even surface, perfect for dyeing and printing

windproof
keeps the wind completely out, windproof products are not always waterproof, but waterproof articles are always windproof, materials that allow a maximum of 5 liters of air per second through one square meter of fabric are called windproof, windproof materials are often uncomfortable to wear due to the lack of breathability during activity

available for men, women and children, unisex

heavy, T-Shirts from 180g/m², Polos from 200g/m², Sweats and Fleece from 300g/m²

60°/90°/95° washable

neutral size label (no brand label) in neckline

article made of combed cotton

Polo with smooth surface

Sweats, not roughened inside

stretch fabric, e.g. with elastane

Poplin cotton - light smooth material

Poplin mix - light smooth material, low shrinkage

Twill - diagonal yarn

oxford – plain-weave fabric, two-tone appearance

membrane

winter product

zip for decoration

waterproof, sealed seams

tear away label

organic cotton

recycled polyester
